ASK INFORMATION REGARDING PARTS OF PEACE TREATY

Wilson Not Yet Invited to Take Part in Discussion Before Committee.

Minor Resolutions Ask for Details on Certain Phases of the Treaty.

Alleged Pact Between Japan and Germany Included in Resolutions.

(By Associated Press.)

Washington, July 14.—The Senate Foreign Relations Committee, beginning consideration today of the peace treaty, reported three minor resolutions bearing on the Versailles negotiations but took no action on the question of asking President Wilson to take part in committee discussion of the treaty.

The resolutions reported would call upon the President and State Department for information regarding an alleged secret treaty between Japan and Germany regarding a protest said to have been made by General Bliss, Secretary Lansing and Henry White against the Shan Tung settlement; why Costa Rica "was not permitted" to sign the peace treaty.

Members of the Foreign Relations Committee said all the two hours meeting was taken up with consideration of these resolutions and that there was no discussion as to inviting the President to meet with the Committee or of the proposal to separately consider the peace terms and the League of Nations covenant.

Detailed discussion of the treaty probably will begin tomorrow.

Immediately after the committee adjourned debate on actual ratification of the treaty began in the Senate. Senator Swanson, of Virginia, a democrat, opened with a speech praising the league covenant as the only possible plan for preserving world tranquility.

While the committee was in session President Wilson discussed various phases of the treaty, particularly the Shan Tung settlement, with senators who called at the White House.

On this point it is said the President pointed out that necessarily the American Peace commissioners could not impose their complete will on the peace conference and were compelled to accept some things in the treaty which they personally disapproved.

(By Associated Press.)

Dayton, O., July 14.—Two more fatalities were listed at McCook flying field today when Capt. Wm. S. Jones, 25, of New Richmond, Indiana, and Geo. Duzane, 30, Chicago, a mechanic, died as result of injuries received when a new type Curtis biplane in which they were riding crashed to the earth shortly before noon.

DECLARES COST OF ARMY CAMPS NOT EXCESSIVE

(By Associated Press.)

Washington, July 14.—Cost of constructing army cantonments was not excessive the house investigating committee was told today by Brigadier General Marshall chief of war department's construction division.

General Marshall said under the cost plus system the "government got as near a dollar's worth for every dollar spent as if we were to begin the construction today."

THE END OF THE FIRST NON-STOP ATLANTIC FLIGHT

Viny-Vickers plane on nose in field at Clifden county, Ireland.

After successfully weathering the terrific storms that swept the Atlantic and threw the plane about at will, the Viny-Vickers plane was badly damaged when it landed in a bog at Clifden county, Ireland, at the end of its trans-Atlantic flight. This picture was taken soon after Captain Alcock and Lieutenant Brown, who drove the plane across the Atlantic, had been helped from the wreck.

PRESIDENT DISCUSSES PACT WITH SENATORS

Shan Tung Situation Receives Particular Attention of Conferencees.

SEN. KING IS SURE AGREEMENT IS O. K.

Question of Appointment of New Officials Discussed.

(By Associated Press.)

Washington, July 14.—President Wilson discussed the peace treaty at some length today with Senators King, Utah, and McKellar, Tennessee, democrats, who were among half a dozen White House callers.

It was understood that particular attention was given the Shan Tung situation, and after the conference Senator King said he was convinced this question eventually would clear itself.

Senator King called at the White House primarily to urge appointment of Abott McGinnis, a Salt Lake City lawyer, as minister to Bolivia.

Both he and Senator McKellar urged that Minister McMillan be given the rank of Ambassador and continue as the representative to Peru.

Mr. McMillan has been nominated by the President as minister to Gua-

ARGO, ILLINOIS SCENE OF MORE SERIOUS RIOTS

Two Rioters will Die of Wounds Received.

Three Killed in Riot Last Week

Chicago, July 14.—Two women and a man were seriously injured today when strikers at the Argo, Illinois, plant of the Corn Products Refining Company stopped street cars carrying non-union men to the plant and clashed with armed guards who were aboard the cars.

A number of shots were fired. Strikers and guards also clashed near the Argo hospital and ten persons are reported to have been slightly injured. Until this morning the village has been quiet since the riot last Tuesday night, in which three persons were killed and score wounded.

DAYLIGHT SAVING IS TO STICK

Resolution to Pass Repeal Over Veto Loses by Decisive Majority.

LITTLE LIKELIHOOD OF ULTIMATE REPEAL

Agricultural Bill to be Repassed Without Repeal Rider.

(By Associated Press.)

Washington, July 14.—Repeal of daylight saving law became a dead issue for the present at least by the failure of the House today to pass the agricultural appropriation bill over President Wilson's veto. The vote was 247 to 135, proponents of the repeal mustering 23 votes less than the required two-thirds.

The agricultural bill will be presented with the repeal rider eliminated and it was said no effort will be made to pass the repeal measure as a separate bill as it undoubtedly would be vetoed.

Under the now defeated rider the law would have been repealed October 6th.

Attempt to Force a Vote to Repeal War Time Prohibition Fails.

Heated Arguments on Proposed Sale of 2.75 Per Cent Beer

(By Associated Press.)

Washington, July 14.—An attempt to force a vote on the repeal of war-time prohibition failed today in the House. On a point of order raised by Chairman Volstead, of the Judiciary Committee, an amendment to the pending prohibition enforcement proposed by Representative Igoe, democrat, of Missouri, was ruled out of order.

Other amendments to the bill giving the President authority to repeal war-time prohibition whenever in his opinion the necessity for its continuation required were offered by Representative Guard, democrat, of Ohio, but were ruled out of order.

A motion to permit the sale of 2.75 percent beer under the war-time prohibition enforcement bill, offered by Representative Dyer, republican, of Missouri, started a whirlwind fight late in the day. When it was apparent half of the members wanted to be heard it was finally agreed to limit debate on the motion to one hour.

And then when the mailing room fell she answered the call she wrapped up and mailed the paper, which she had made all alone, to the 1,200 odd subscribers.

Countless Thousands Take Part in Great Feast Featured by Victory Parade.

STREETS THROGGED THROUGHOUT NIGHT

Americans in Parade Wildly Cheered by French—Pershing Attends.

(By Associated Press.)

Paris, July 14.—With representatives of all allied nations in line, Paris today had its Victory Day parade and celebration.

People from all over the country had arrived in Paris for the fete, and crowds thronged the streets during the entire night. The congestion was as great as that on armistice day.

An empty casket at the Arc de Triomphe was decked with wreaths in honor of the dead, as the parade passed led by about one thousand wounded soldiers.

Marshals Joffre and Foch and General Pershing, in company with a number of other American generals, were enthusiastically received.

A composite unit representing all organizations of the American Expeditionary Force and marching with wonderful precision was greeted by a sea of waving handkerchiefs and flags and deafening cheers.

Every available window along the line of march had been rented at unusual prices and crowds even gathered on roofs. One roof gave way and 18 persons were injured.

DEPUTY SHERIFF KILLS AGED MAN IN PICKAWAY

Under the belief that he was a thief and was endeavoring to escape, Marson Dresbach, of Circleville, Saturday night shot and instantly killed George Vollmer, aged 67, of Columbus, the shooting taking place at Elmwood Station, Pickaway county.

Dresbach in company with others under the leadership of Marshal Waite, of Circleville, were seeking men wanted for stealing at Camp Sherman, and Vollmer and two companions had lain down beside the traction line after a day of fishing. When suddenly aroused and commanded to throw up their hands, Vollmer and his companions started up, thinking they were being held up. Vollmer started to fall back over the embankment when Dresbach is alleged to have fired, the ball striking him in the heart. Dresbach has been arrested and placed under \$1,000.

Mr. Maddux and pilot were sent by the government to Indianapolis after this plane, a Handley-Page, which had been wrecked.

America's Duty

No thinking man can deny that the struggle of humanity, following the close of the world war, is toward a higher moral plane rather than military supremacy. Indeed the struggle began during the horrors of war days, when out of the realization of the cruelty, the barbarism, the selfishness of it all sprang the great ideal.

By word and act the nations and people must be led and taught that unselfishness and honor and honesty and fair dealing is to prevail throughout and rule the world in the future rather than great armies led and directed by brutal tyrants who seek nothing save to further their own ambitions.

Unanimously the world looks to America to lead the way. America is the one nation unsuspected of selfish ambitions or secret purpose. America has proven her unselfish purpose by her attitude. She has, in the League of Nations agreement been offered the moral leadership of the world.

Can America decline so plain a duty? Can America the hope of the world, fail in this crisis? Can America seek to restore, under present conditions, under the present world demand, her old isolation? That would be a selfish and a vain act now.

America can't turn back the march of events. We have, with the rest of the world, entered a new era. The world is expecting, as its only hope, the torch of liberty to lead on to better days.

Lifting the Blockade

The blockade of Germany, which has been rigidly and effectively maintained by the allied powers since the early days of the war, has been lifted and German trade given, for the first time in years an opportunity to secure needed articles of food and raw material.

The blockade of Germany was one of the greatest and most effective weapons with which the nations defended themselves against the Hun attacks.

Not a rule of civilized warfare as established by international law was violated in maintaining the long blockade. Though Germany resorted to every barbarity which the ingenuity of intellects trained to depredations, could devise, nothing proved effective to break or to even more than temporarily loosen the grip which those bull dogs of the sea had secured on the Germans.

Day by day, month by month and year by year, despite submarine barbarities and every conceivable breach of international law and treaty obligation, the allied blockade grew stronger and more effective.

The resumption of trade relations will come later on, probably in the near future, but the removal of the trade barriers which is all the governments can do, does not mean that German trade will at once spring back to its former magnitude. The buying world, while there will be no organized, no national boycott, will be exceedingly slow in forgetting the offenses of those who will soon come seeking the resumption of profitable trade conditions.

The Rain

Fayette county, Saturday night, enjoyed just the kind of a rain it has been needing for a long time.

The vivid lightning and almost continuous roll of thunder from before midnight of Saturday until after seven o'clock Sunday morning was inspiring and beautiful, to some terrifying, but the great storm clouds approached slowly and majestically from the west and the northwest with very little wind and with most of the lightning confined for the most part to higher regions. The deadly forked flashes seemed to content themselves with leaping from one cloud to another.

Rarely, even in July, have the heavens staged a more brilliant display of electricity than that of Saturday night. For over eight hours the lightning and its accompanying thunder held full dominion.

During all the magnificent storm, however, the needed rain came down gently for a while, then with a rush, one shower scarcely passing over into the east when, the seemingly inexhaustible elements sent reinforcements with more lightning, more thunder and more rain.

All through the night, one detachment after another was ordered forward, by the Great Commander of the heavenly forces, from out the great cloud reserve which banked the western heavens, with a blue blackness, which each flash of the lightning revealed, until the parched earth had drunk its fill and the vegetation had revived under the cooling draughts from nature's reservoirs.

There is nothing more glorious than a July storm like the one of Saturday night when, the first assaults of the heavy artillery have passed and with confidence restored, man and beast, realize and enjoy the blessings which nature sends us in her own tremendous dimensions.

POETRY FOR TODAY

PATROLLING BARNEGAT

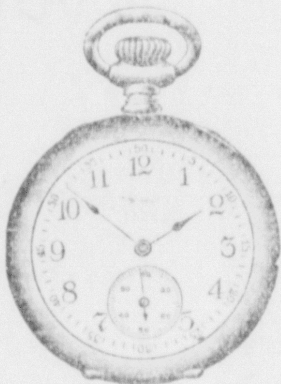

Wild, with the storm and the sea
high running,
Steady the roar of the gale, with incessant undertone muttering.
Shouts of demonic laughter fitfully
piercing and pealing.
Waves, air, midnight, their savagery
trinity bashing.
Out in the shadows there milkwhite
combs careering,
On beachy slush and sand spirits of
snow fierce slanting,
Where through cutting swirl and
spray watchful and firm advancing,
(That in the distance! Is that a
wreck? Is the red signal flaring?)

Slush and sand of the beach tireless
till daylight wending,
Steadily, slowly, through hoarse roar
never remitting,
Along the midnight edge by those
milk-white combs careering,
A group of dim, weird forms, struggling,
the night confronting,
That savage trinity warily watching.
—Walt Whitman.

FINAL SESSION OF CENTENARY SUNDAY EVENING

Greatest Church Exposition Ever Held Comes to a Close.

Drive is Started for Million Additional Members.

Columbus, O., July 14.—With the holding of the consecration service in the oval last evening the Centenary Exposition came to a close.

All secular features of the three-weeks' program had been concluded Saturday and the services of the last day were religious in character, bringing to a close the largest church exposition ever held.

During the 24 days of the exposition thousands of people attended daily, running the total number far into the hundreds of thousands, if not to the million mark.

As yet no figures have been compiled as to the gate receipts or the attendance. Those it was said yesterday, would not be ready for several days.

With the close of the exposition the Methodist church will begin a campaign to add 1,000,000 additional members by June, 1920. To assist in this work the 23 area offices over the United States, established during the centenary campaign, will be continued.

Three departments will carry out the program. The division of spiritual resources will include stewardship, intercession and life service. The division of lay activity will direct the work of the Methodist minute men. Education and publicity will be organized under one director. The joint centenary committee will meet in September to work out further details of the program.

BRIDE SOUGHT FOR PRINCE.

Vienna, July 14.—(Associated Press)—King Ferdinand of Rumania, according to reports received here, is endeavoring to find among the European Princesses a wife for Crown Prince Charles. Among those mentioned in this connection is Princess

Yolanda, the oldest daughter of the King of Italy.

After witnessing the average military drama it is easy to believe that war is what Sherman said it was.

A quiet wedding of interest to a large family connection and many friends took place Saturday evening at half past nine o'clock, where Mr. Alonzo N. Wilson wealthy and successful farmer of the New Martinsburg pike, was united in marriage to Mrs. Flora Lewis, of Detroit, Mich., who has been visiting the bridegroom's sister, Mrs. Thomas Hillery. The ceremony was performed by Rev. G. E. Grove at the Hillery home, with only the immediate family in attendance.

A profusion of flowers were tastefully used in decoration and Mrs. Hillery served a light luncheon after the ceremony.

Mr. and Mrs. Wilson went at once to the bridegroom's country home where the best wishes of many friends follow them.

Centenary pageant, "The Wayfarer" in Columbus, has been purchased at an enormous price by the Evansville University, Evansville, Ind., the University with which Dr. and Mrs. G. Bruce Franklin will be connected this fall.

There was keen rivalry for the possession of this wonderful organ, Macon, Ga., foremost in the lead until Evansville entered the race.

A party of fourteen young girls, chaperoned by Miss Carrie Willis, are on a two week's camping outing on Paint Creek. They pitched camp Monday on the Garringer farm, adjoining Cedar Hurst, a beautiful shaded place on the creek banks, and are fully equipped for all the delights of the summer camp, fishing, boating, bathing and so forth.

The girls have an immense tent for a dining hall and other tents for sleeping quarters. They expect to have a royal two weeks.

In the party are Elizabeth Westerfield, of New Orleans, La., Roma Elizabeth and Portia Brownell, Mary and Jane Durant, Helen Kearney, Mable Sunkle Charlene Tharp, Laura Brownell, Dorothy Dick, Florence Bliss, Ruth Tanquary, Virginia Ellies.

Dr. and Mrs. G. Bruce Franklin, son Robert Bruce, leave Tuesday for visits in Atlanta and Savannah, Ga., before taking up their new work in Evansville University.

During her husband's absence in overseas service Mrs. Franklin resided with her parents, Capt. and Mrs. George C. Jenkins on E. Paint street and devoted herself to war work and philanthropic efforts to her home town, giving largely of her strength and brilliant mentality to the improving of conditions in civilian life. She leaves in Fayette County annals a record of magnificent work in connection with the Woman's Committee Council of National Defense, giving up lucrative offers at the solicitation of the women of her girlhood's home.

Her advice and help was invaluable in the work of the Woman's Committee, C. N. D., especially in the Child Welfare Department, which became favorably known throughout the state.

Mrs. Franklin was also instrumental in bringing before the County Commissioners the need of a Probation officer, and when no one was found capable of filling this position, on account of war conditions, at considerable financial sacrifice, herself took the appointment from Judge Allen.

Those in close touch with Mrs. Franklin's work as Probation Officer during the past year are convinced that she has given to the duties of the office her best efforts and attained remarkable success—her success in

large measure due to her humanitarian view point and broad sympathies, always working as the friend of the child and with the desire to correct faults rather than punish.

To this work Mrs. Franklin brought the double advantage of an unusually complete education and wide experience. She had spent one season with Jane Adams in the work of Hull House, Chicago! had had extensive philanthropic work in the East and just before coming to this city engaged in similar work directly under Julia Lathrop, head of the Government Child Welfare work.

The regret attendant upon Mrs. Franklin's withdrawal from Washington and its philanthropic interests is almost unmeasured and there is general realization that her place in its many sided roundness, will be difficult to fill.

Better Than the Old Favorites

To most women a good cold cream is as much a daily necessity as soap. Garden Court Cold Cream is of peculiarly fine quality and never becomes rancid. A cold cream that rancidifies is not only disagreeable to use, but the free fatty acids it contains irritate the skin; hence the necessity of choosing a permanent product such as Garden Court Cold Cream, which retains its original freshness for any length of time. Besides its soothing and emollient properties, it acts as an admirable cleanser. For this purpose, the cream is applied by means of a soft cloth dipped in hot water and wrung out tightly. You will be surprised at the amount of grime and dust that can thus be removed from the pores, which would not be reached by washing the face with soap and water. (Sold at fifty cents.)

PLAN TO CHANGE SCRIPT WRITING TO PRINT WRITING

(By Associated Press)

London, June 17.—(By Mail).—To
abolish script-writing and replace it
by print-writing is the purpose of an
influentially supported movement
begun in this country. Advocates
of the change contend that the present
system fails to stand the test of com-
mercial life in England and causes a
great loss of time and labor.

The characters used in the pro-
posed system are the ordinary printed
letters, known as Roman block let-
ters, with the exception of the "a"
and "g" which are simplified into
their script forms. The print charac-
ters were employed by monks long
before script-writing came into fash-
ion and can still be seen in ancient
manuscripts from which, in fact, they
were first copied by the printer.

Advocates of print writing claim it
possesses many advantages over or-
dinary handwriting, especially to the
teacher that, the same characters be-
ing employed both for writing and
reading, the child learns much more
quickly, and it is further asserted
that his spelling and his education
as a whole are correspondingly bene-
fited.

Many British educated authorities
favor print-writing and it is taught
in numerous British schools. No time
is wasted in the new system on in-
numerable joinings. Superfluous
loops and flourishes are abolished.

On big London firm has adopted the
system and other concerns are said to
be considering its use.

DEMobilIZATION RAPID

Washington, D. C., July 13.—De-
mobilization is proceeding at a rate
of more than 10,000 men a day and
the total should pass the 3,000,000
mark by or before July 16.

A War Department report showed
2,847,686 officers and men discharged,
with some camps yet to be heard from.
Enlistments have begun to show
the impetus of the department's ad-
vertising campaign. The total is now
75,000, returns from July 5 to 12
having been more than 20,000.

CROWDER TO BE RELIEVED.

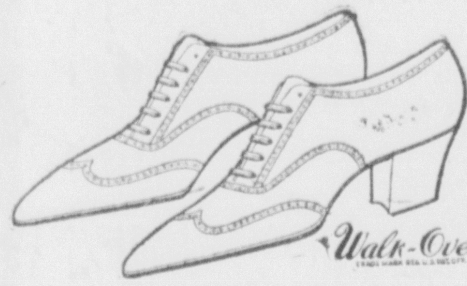

Washington, D. C., July 13.—Major
General Crowder will be relieved of

eral, effective July 15 under orders
issued today by the War Department.

NEW INDICTED FOR MURDER IN FIRST DEGREE

Los Angeles, Cal., July 13.—An in-
dictment charging first degree mur-
der was filed by the grand jury
against Harry S. New, Jr., who claims
to be a son of United States Senator
New of Indiana.

The prisoner already had confessed
that he killed his sweet heart,
Freda Lesser, in Topanga Canon, a
week ago.

Plans had been made for a prelim-
inary hearing in the case Monday,
but today District Attorney Thomas
L. Woodwine presented evidence be-
fore the grand jury and asked for an
indictment.

New will be arraigned Tuesday be-
fore Judge Frank H. Willis in De-
partment 17, Superior Court, to plead
to the indictment.

HEAVY SNOWSTORMS IN SOUTH AMERICA

New York, July 13.—A number of
ships have been wrecked, several
sent to the bottom and enormous
damage has been done along the sea
coast of Chile by a heavy snow and
sleet storm which is sweeping the
southern portion of South America,
according to advices received here
today.

The German steamers Tanis and
Sais are aground near Valparaiso and
close to them lie two large German
sailing ships. Many smaller vessels
have been sunk.

The German steamer Westphalen
went adrift, and after sinking several
hulks, is afloat of the Valparaiso dry
dock.

The latest reports say that the
wind is moderating. No information is
available in regard to loss of life.

TWO AVIATORS KILLED.

Stockholm, July 14.—H. Solder-
stroem and E. A. Bagge, Swedish of-
ficers, fell 300 meters in an airplane
and were killed.

BUCYRUS — Prof. J. J. Phillips,
superintendent of the Galien schools,
was elected superintendent of the
Bucyrus schools at a salary of \$3000
a year.

FARM NOTES

County Funds for Home Agents

Now Authorized.

County Commissioners may appro-
priate funds for home demonstration
agents in any Ohio county. This is
made possible by a new bill passed
by the state legislature. The money
may also be used to support boys' and
girls' club work or county agent
work.

The law says that "after having ap-
propriated under this section and a
home demonstration agent having
been employed for the county, the
county commissioners shall appropri-
ate under this section in each suc-
ceeding year for five years not less
than \$1,000."

Would Omit Local Ads in Farm

Bureau News.

Resolutions recommending that
county farm bureau publications
should not accept advertising in com-
petition with local newspapers were
passed at the seventh annual confer-
ence of the American Association of
Agricultural College Editors held at
the Ohio State University, Columbus,
on June 25, 26 and 27.

Inasmuch as farm bureaus are de-
pendent on the local press for co-
operation in giving publicity to an-
nouncements of general farm bureau
activities, it was the opinion of the
agricultural college editors, repre-
senting 20 states, that resentment and
eventually organized opposition of the
press to farm bureau work would re-
sult from competition in this field.—

GOTHAM MERCHANT SLAIN

New York July 13.—A general alarm
was sent out by police for two em-
ployees of the firm of Hull & Dep-
pisch, stationers, Gardeners C. Hull,
the senior member of which was so
badly beaten with a hammer in his
office last night that he died this af-
ternoon without regaining conscious-
ness.

The men whom the police are seek-
ing were picked up in a park about a
year ago by a member of the firm
and employed as messengers.

WILKINS'S FRIENDS AROUSED.

Long Beach, N. Y., July 13.—
Friends of Dr. Walter Keene Wilkins
announced today they were endeavor-
ing to clear the name of the aged
physician who was convicted recently
of having murdered his wife at their
Long Beach home last February and
who hanged himself in the Nassau
County Jail at Mineola while awaiting
sentence of death.

SOON TO BEGIN WORK ON HIGHWAY

There is every reason to believe
that actual work of rebuilding the Co-
lumbus pike from this city to the
county line near Cooks Station, will
be started within the next few weeks
and that quite a large section of the
road will be completed this year.

Announcement during the next 24
hours that the contract has been
awarded is expected by county offi-
cials.

COUNTY SWEEP BY WORST STORM OF THE SEASON

Wind, Hail and Lightning
Cause Considerable Loss
In Some Districts.

Heavy Rainfall Very Bene-
ficial to Corn and Other
Growing Crops.

After a day and evening of intense humidity, the worst rain, wind, hail and electrical storm of the season swooped down upon Fayette county late Saturday night, and for several hours a large part of the county was held in the grasp of a series of storms, during which time the electric display was one of the greatest ever witnessed in the county, and the clouds hung low and threatening.

The lightning struck hundreds of times within the county, and so far reported the most serious damage was the destruction of a barn on the Chas. Blankenship farm on the Prairie pike near the intersection of the Woods road. The barn, which had just been filled with hay, and which contained several sets of harness and other farming equipment, was destroyed in short order with considerable loss to Mr. Blankenship.

Scores of trees were shattered and a few other buildings struck, but none burned.

The wind scattered a great deal of the shocked wheat in various parts of the county, and left many corn fields with the corn laying almost flat to the ground. The bulk of the corn will speedily straighten up, however. The ripening oats went down in some districts.

Telephone service was badly demoralized as result of poles being struck and fuses burned out, wires torn down by falling limbs and switch boards becoming out of order.

However, the rainfall over the county was general, and in this city 1.64 inches of water fell during Saturday night and early Sunday morning.

As a result of the heavy rainfall the corn crop, which was facing serious damage as result of the dry weather, has been tided over in safety for the present.

MAKING PLANS FOR CHAUTAUQUA AUGUST 15 TO 21

The committee in charge is at work on plans for the annual Chautauqua which this year will open on Friday, August 15th, and close on Thursday, the 21st of August.

As usual the Chautauqua will be held on the High School grounds, Paint street side, and the program will include a large variety of entertaining and instructive attractions, some of them decidedly out of the ordinary and all of them really worth while.

On July 18th, at 8:00 o'clock, the guarantors of the Chautauqua will hold a meeting at the high school building for the purpose of taking up details of the big event and completing their part of the work in order to guarantee the thorough success of the chautauqua.

Judging from attendance at other similar events, the attendance here this year will be the largest of the series of chautauquas held here.

A complete list of the talent forming the program will be announced in the very near future, and the program will be awaited with interest by the large number of lovers of chautauqua and things worth while.

PERSHING SOON TO SAIL.

Washington, July 14.—Preparations for the early return of General Pershing and his staff from France are indicated army officials said Sunday. Crating of the voluminous records of the expeditionary forces at the Central Records Office has been completed, and shipment to a seaport is about to begin.

Boys and Girls Your Last Call to War Work

Your government, to whose every call you have responded so nobly, has one more last task for you—the sale of War Savings Stamps. It must have more money to complete its great victory by doing what it has promised to the soldiers who won.

They must be brought home to their loved ones.

The sick and wounded must be cared for tenderly.

The dependents of those who died must be protected.

To Encourage Your Efforts

Knowing that the boys and girls of Ohio's schools could be depended upon to do their full duty, and recognizing their faithfulness in times past, patriotic business houses have donated this wonderful array of presents, to be awarded for the sale of War Savings Stamps between April 17 and October 1. The prizes will be awarded in the order of the amount of sales, in the great

Vacation War Savings Stamp Contest

These presents may be won by any boy or girl in any public, parochial or preparatory private school in Ohio. Nothing is asked except the sale of stamps, and every sale made will apply on the Presidential Stamp series as well.

When you enlist in this effort, you are working to help your government, to keep Ohio's schools in the forefront of patriotic effort, and to win a big reward for your own self.

Ask your teacher about the method and rules. Form a Vacation Thrift Committee and help Uncle Sam.

Columbus Team Obtains
One Measly Marker in
Tie-up With Athletics.

Clifton Blows Up in The
Sixth—Joe Wyman Does
Some Good Work.

In the poorest exhibition of base
ball put up by any visiting team this
season at the local lot, the L. B. Mar-
tins of Columbus were defeated by
the fast traveling Athletics Sunday af-
ternoon by the lopsided score of 10 to
1. There were just two players on
the visiting team as far as the local
boys were concerned—Wyman, catch-
er, and Goodwin, shortstop.

The game was a pretty exhibition
until the sixth inning when something
went wrong with the Clifton machin-
ery and between several base hits,
interspersed with a walk and two
men hit by the pitcher, the Athletics
managed to slip six runs around the
paths and the game was over as far
as the winner was concerned.

Joe Wyman, a former local High
School boy, and one of this year's
graduates from Commerce High, did
the backstopping for the opponents
and the manner in which he handled
the offerings of both Clifton and Ye-
ager clearly showed why he has won
a reputation as the best amateur
catcher in Columbus. Joe received a
big hand when he came to bat in the
second inning.

Clifton, who pitched a two hit game
against the Pan Handles on Saturday,
did not prove troublesome for the lo-

cal cudgel swinger and his complete
blowup in the sixth was not unex-
pected by the fans. This was his sec-
ond appearance in this city this sea-
son and he was touched up pretty
lively in the first game he pitched
here. Yeager assumed the hurling
role and was given a rather rude re-
ception but managed to cling to the
hill.

The work of Corwin with the stick
was in a class by itself. In five trips
to the plate he connected for four
safe drives. One was good for two
bases. Turner came up for a 500 aver-
age with two safeties in four trips to
the pan.

The single marker scored by the
visitors was on a clean single by
Farrell a free pass and a single by
Clifton.

Morris came forward with his us-
ual string of strike-outs and nine
would-be hitters connected with the
afternoon's breeze in mighty efforts.

The game was a little late in start-
ing account of slow progress on the
roads but this gave the local bugs
who thought there was not going to
be a game because of wet grounds, a
chance to see the game from the
start.
